INTRODUCTION

Different characteristics are important for success in different jobs, and characteristics that are important in one job may interfere with performance in others. The Hogan Personality Inventory (HPI) evaluates candidates on seven well-known dimensions or characteristics that influence occupational success. This report is based on the candidate's scores on these dimensions and it is organized in three sections. Section I reviews the candidate's results focusing on (a) characteristics relevant for success in most work environments; (b) suitability for the position; and (c) the style with which he/she will interview. Section II provides a graphic report of the candidate's assessment results. Section III summarizes the recommendation for job fit and potential hiring.

The Hogan Personality Inventory evaluates candidates on seven well-known characteristics that influence occupational success.

SECTION I - SUMMARY OF ASSESSMENT RESULTS

**Employment Fit**

Jane Doe tends to be calm and even-tempered, and should manage his/her emotions appropriately regardless of the situation. He/She is a responsible team player who attends to details, but who can also be flexible about the rules. Jane Doe may not like formal training programs, and should prefer to learn new skills in a hands-on manner.

**Job Fit**

Mr./Ms. Doe is usually stable and steady. Mr./Ms. Doe is seen as relatively energetic and reasonably hard working. He/She is cooperative and friendly, but he/she can also disagree with others tactfully. Although he/she typically respects procedures and processes, he/she can change direction to deal with the unexpected. Mr./Ms. Doe should enjoy taking others' ideas and translating them into workable solutions.
